Dr. Mathematics Education Center Aims to Cultivate Gifted Children’s Math Skills at an Early Age

Prof. Mathewmatician, a math training expert, has trained numerous students to win various math competitions and get excellent results in public examinations.

Get top quality mathematics education from a Mathematics Olympiad Professor

Math is one of the most important areas in education that students need to learn. Not only is it useful, it helps develop problem solving skills by improving one’s mental discipline and logic reasoning.

However, mastering the many subjects under math is not easy for everyone. Some need more learning support, while some are naturally gifted with exceptional skills that just need to be guided to reach their full potential. Dr. Mathematics Education Center offers to improve students’ math skills and help them achieve their goals.

Dr. Mathematics Education Center aims to improve mathematics education for students. Headed by award-winning educator, Prof. Mathewmatician, one of the center’s mission is to discover the children who are gifted in mathematics, and cultivate them at an early stage. Students who wish to take early admission tests at well-known universities can take the center’s Flagship MathElite course.

Dr. Mathematics Education Center offers training to those who wish to compete in mathematics competitions. Numerous students of Prof. Mathewmatician have won various awards and competitions. The center also aims to develop a variety of online mathematics courses. Some of the center’s courses include Introductory Mathematics Olympiad Online Course, online courses for different examinations, Abacus and Mental, Arithmetic Online Program, and Flagship MathElite. The center’s founder is an Assistant Professor at the American International Theology University. Among his many educational achievements are a Master’s Degree of Science in Mathematics for Educators from the Hong Kong University of Science and Technology; Master’s Degree of Science in Mathematics Education from the Chinese University of Hong Kong; as well as Doctor’s Degree of Philosophy in Education from the American International Theology University;

Dr. Mathematics Education Center offers courses that aim to improve students’ mathematical skills to help them achieve their goals. They have courses that are targeted towards cultivating gifted students’ math skills, as well as courses that help those who are aiming for early admission at well-known universities, and many other courses.
